

WISE10

The Tenth World Conference on Information Security Education
29th to 31st May, 2017
IFIP TC11 WG 11.8 - Information Security Education

At SEC2017 - IFIP International Information Security Conference
Rome, Italy

The IFIP Working Group 11.8 - Information Security Education will hold the Tenth World Conference on Information Security Education (WISE10) in order to advance the state of computer security and information assurance education throughout the world. To that end, we invite practitioners, researchers, and policy makers from academia, industry, and government to submit papers for presentation and working group topics to WISE10. We will organize the conference around paper presentations and potential working group topics. All presentations and discussions will be in English.

WISE10 will be held in conjunction with the 2017 IFIP International Information Security Conference (SEC2017). See the WISE10 web site <http://www.ifiptc11.org/wg118-events/wise10> for more information about WISE10; see the SEC2017 web site <https://www.ifipsec.org/> for more information about SEC2017.

The theme for WISE10 is “*Information Security Education for a Global Digital Society*”. We solicit submissions on all relevant topics including, but not limited to:

- Emerging Trends and Holistic Approaches in Information Security Education
- Cyber Ethics, Cyber Security Education and Training the Cyber warrior
- Education of Information Security Professionals
- Education in Computer Forensics and the Law
- Education in Security-Related Data Mining
- Education in Secure Wireless Communications
- Education in Critical Information Infrastructure Security
- Penetration Testing Education
- Education in Secure e-Banking and e-Commerce
- Education in the Internet of Things Security
- Education in Financial and Economic Security
- New Programs in Security and Privacy Education
- Experimental Information Security Education and Training
- Information Security Curricula Guidelines
- Evaluation of Security Programs
- International Standards of Security Education and Assessment
- Security Certification Programs
- Professional Competencies in Security
- Informing Citizens in Information Security and Programs to Raise Information Security Awareness
- Information Security Education in Non-Academic Contexts
- Information Security Laboratories
- E-Learning for the Listed Areas of Security Education

The conference will feature general paper sessions and a working group session.

- **Paper submissions** should follow the guidelines for full paper submission using the template that can be found at <http://www.ifiptc11.org/wg118-events/wise10#authors-guideline> and are to be submitted through EasyChair at <https://easychair.org/conferences/?conf=wise10>. The submissions for WISE will be reviewed separately from the SEC2017. Accepted papers will be published in the conference proceedings. Papers must be original work, not previously published, written in English, and up to 10 pages long. All submissions will be reviewed double blind and must be submitted in a full and blinded version (author and institution information removed). Submission instructions are available on the conference website. Acceptance will be based upon originality, contribution to the field, and relevance to the conference. The conference proceedings will be published under the *IFIP Advances in Information and Communication Technology Series* by Springer (with ISBN and indexed in Scopus) and distributed at the conference.
- **Submissions for working group topics** should describe in ~500 words the topic of the working group, its relevance to IFIP TC11, WG11.8, the goals to be achieved during WISE, and plans for continued collaboration after WISE.
